PYNE GOULD CORPORATION LIMITED
DIRECTORS' RESPONSIBILITY STATEMENT

The directors are responsible for ensuring that the interim financial statements give a true and fair view of the financial position of the Group as at 31 December 2009 and the financial performance and cash flows for the period ended on that date.

The directors consider that the interim financial statements of the Group have been prepared using appropriate accounting policies consistently applied and supported by reasonable judgements and estimates and that all the relevant financial reporting and accounting standards have been followed.

The directors believe that proper accounting records have been kept which enable, with reasonable accuracy, the determination of the financial position of the Group and facilitate compliance of the interim financial statements with the Financial Reporting Act 1993.

The Board of Directors of Pyne Gould Corporation Limited authorised the interim financial statements set out on pages 3 to 17 for issue on 26 February 2010.

For and on behalf of the Board

PYNE GOULD CORPORATION LIMITED
NOTES TO THE INTERIM FINANCIAL STATEMENTS
FOR THE PERIOD ENDED 31 DECEMBER 2009

1 Reporting entity

The interim financial statements presented are the consolidated interim financial statements comprising Pyne Gould Corporation Limited (the "Company") and its subsidiaries and associate Company (the "Group"). Reliance is placed on the Group continuing as a going concern.

All entities within the Group offer financial services, they all operate and are domiciled in New Zealand. The registered office address is 233 Cambridge Terrace, Christchurch.

2 Basis of preparation

The interim financial statements presented here are for the following periods:

At 31 December 2009: 6 month period - Unaudited

At 31 December 2008: 6 month period - Unaudited

At 30 June 2009: 12 month period - Audited

(a) Statement of compliance

These condensed interim financial statements have been prepared in accordance with generally accepted accounting practice in New Zealand and NZ IAS 34 Interim Financial Statements. They do not include all of the information required for full annual financial statements, and should be read in conjunction with the financial statements of the Group as at and for the year ended 30 June 2009. By complying with NZ IAS 34 the Group is also in compliance with IAS 34.

The Company is a profit-oriented entity. The Company is a reporting entity and an issuer for the purposes of the Financial Reporting Act 1993 and its interim financial statements comply with that Act. The interim financial statements have been prepared in accordance with the requirements of the Companies Act 1993 and the Securities Regulations 2009.

(b) Basis of measurement

The interim financial statements have been prepared on the basis of historical cost, unless stated otherwise.

(c) Functional and presentation currency

These interim financial statements are presented in New Zealand dollars which is the Group's functional currency. Unless otherwise indicated, amounts are rounded to the nearest thousand.

(d) Estimates and judgements

The preparation of interim financial statements requires the use of management judgement, estimates and assumptions that affect reported amounts. Actual results may differ from these judgements.

(e) Going concern

The interim financial statements have been prepared on a going concern basis after considering the Company's and Group's funding and liquidity position.

3 Significant accounting policies

(a) Associate companies

Associate companies are accounted for at cost in the Company with dividends received recorded in the Interim Statement of Comprehensive Income. Associate companies are equity accounted in the Group.

(b) Investments in subsidiary companies

Investments in subsidiary companies are recorded at cost in the Company. Subsidiaries are consolidated in the Group.

NOTES TO THE INTERIM FINANCIAL STATEMENTS
FOR THE PERIOD ENDED 31 DECEMBER 2009

3 Significant accounting policies (continued)

(c) Interest

Interest income and expense is recognised using the effective interest method in the Interim Statement of Comprehensive Income. The effective interest rate is established on initial recognition of the financial assets and liabilities and is not revised subsequently. The calculation of the effective interest rate includes all yield related fees and commissions paid or received that are an integral part of the effective interest rate.

Interest on the effective portion of a derivative designated as a cash flow hedge is initially recognised in the hedging reserve. It is released to the Interim Statement of Comprehensive Income at the same time as the hedged item.

(d) Operating lease revenue and expense

Revenue from operating lease vehicles is apportioned over the term of the operating lease on a straight line basis.

Operating lease vehicles are depreciated on a straight line basis over their expected life after allowing for any residual values. The estimated lives of operating lease vehicles vary up to 5 years. Vehicles held for sale are not depreciated but are tested for impairment.

(e) Fee and commission revenue

Fee revenue that is integral to the effective interest rate of a financial asset or liability is included in the measurement of the effective interest rate. Other fee revenue is recognised as the related services are rendered.

(f) Property, plant, equipment and depreciation

Land and buildings are recorded at cost less accumulated depreciation. Plant and equipment are recorded at cost less accumulated depreciation.

Property, plant and equipment other than land are depreciated on a straight line basis, at rates which will write off cost less estimated residual values over their estimated economic lives as follows:

Buildings	50 years
Plant and equipment	1 - 13 years

(g) Cash and cash equivalents

Cash and cash equivalents include notes and coins on hand and unrestricted balances held with banks. Cash and cash equivalents are carried at amortised cost in the Interim Statement of Financial Position.

(h) Management of capital

Some members of the Group have minimum capital requirements which they are required to maintain in accordance with its Trust deeds and borrowing facilities. Each of these companies maintains an appropriate buffer above these ratios and reports these to its Board monthly.

(i) Tax

Income tax expense for the period comprises current and deferred tax. Income tax expense is recognised in the Interim Statement of Comprehensive Income except to the extent that it relates to items recognised directly in equity, in which case it is recognised in equity.

Current tax is the expected tax payable on the taxable income for the period, using tax rates enacted or substantively enacted at the balance date, and any adjustment to tax payable in respect of previous periods.

Deferred tax is accounted for using the balance sheet method, providing for temporary differences between the financial reporting carrying amount of assets and liabilities and the amounts used for tax purposes. Deferred tax is measured at the tax rates that are expected to be applied to the temporary differences when they reverse.

A deferred tax asset is only recognised to the extent that it is probable that future taxable profits will be available against which the asset can be utilised.

NOTES TO THE INTERIM FINANCIAL STATEMENTS
FOR THE PERIOD ENDED 31 DECEMBER 2009

3 Significant accounting policies (continued)

(j) Derivative financial instruments

Derivative financial instruments are contracts entered into to reduce the exposure to fluctuations in interest rates on variable rate borrowings. The financial instruments are subject to the risk that market values may change subsequent to their acquisition, however such changes would be offset by corresponding, but opposite, effects on the variable rate borrowings being hedged. Derivatives are initially valued at fair value and subsequently remeasured at fair value. Fair value movements of derivatives that are not designated in a qualifying hedge relationship, are recognised in the Interim Statement of Comprehensive Income.

Fair value movements of the effective portion of a qualifying hedge derivative are recognised directly in equity. The amount recognised in equity is transferred to the Interim Statement of Comprehensive Income in the same period as the hedged cash flow affects the Interim Statement of Comprehensive Income, disclosed in the same line as the hedged item. Any ineffective portion of changes in fair value of the derivative are recognised immediately in the Interim Statement of Comprehensive Income. Fair value movements of a derivative designated as a fair value hedge are recognised directly in the Interim Statement of Comprehensive Income together with the hedged item.

(k) Finance receivables

Finance receivables are initially recognised at fair value plus incremental direct transaction costs and are subsequently measured at amortised cost using the effective interest method, less any impairment loss.

(l) Financial assets and liabilities

Recognition

The Group initially recognises loans and advances, deposits, debt securities issued and subordinated liabilities on the date that they are originated. All other financial assets and liabilities (including assets and liabilities designated at fair value through the Interim Statement of Comprehensive Income) are initially recognised on the trade date at which the Group becomes a party to the contractual provisions of the instrument.

Derecognition

The Group derecognises a financial asset when the contractual rights to the cash flows from the asset expire, or it transfers the rights to receive the contractual cash flows on the financial asset in a transaction in which substantially all the risks and rewards of ownership of the financial asset are transferred. Any interest in transferred financial assets that is created or retained by the Group is recognised as a separate asset or liability.

The Group derecognises a financial liability when its contractual obligations are discharged or cancelled or expire.

The Group enters into transactions whereby it transfers assets recognised on its Interim Statement of Financial Position, but retains either all risks and rewards of the transferred assets or a portion of them. If all or substantially all risks and rewards are retained, then the transferred assets are not derecognised from the Interim Statement of Financial Position. Transfers of assets with the retention of all or substantially all risks and rewards include, for example, securitised assets and repurchase transactions.

Classification

Financial assets and liabilities are classified in the following accounting categories:

<u>Financial Assets/Liabilities</u>	<u>Accounting Category</u>
Finance receivables	Loans and Receivables
Other financial assets	Loans and Receivables
Borrowings	Other liabilities at amortised cost
Other financial liabilities	Other liabilities at amortised cost
Derivatives	Held for trading

(m) Intangible assets

Software acquired by the Group is stated at cost less accumulated amortisation and any accumulated impairment losses. Subsequent expenditure on software assets is capitalised only when it increases the future economic value of that asset. Amortisation of software is on a straight line basis, at rates which will write off cost over their estimated economic lives of 3 to 4 years.

PYNE GOULD CORPORATION LIMITED
NOTES TO THE INTERIM FINANCIAL STATEMENTS
FOR THE PERIOD ENDED 31 DECEMBER 2009

3 Significant accounting policies (continued)

(n) Operating lease vehicles

Operating lease vehicles are stated at cost less accumulated depreciation. Current period depreciation and profits or losses on the sale of operating lease vehicles are included as part of the operating lease expense. Depreciation is on a straight line basis, at rates which will write the vehicles down to residual value over their economic lives of up to 5 years.

(o) Impaired assets and past due assets

Impaired assets are those loans for which the Group has evidence that it has incurred a loss, and will be unable to collect all principal and interest due according to the contractual terms of the loan.

The term collectively impaired asset refers to an asset where an event has occurred which past history indicates that there is an increased possibility that the Group will not collect all its principal and interest as it falls due. No losses have yet been identified on these individual loans within the collectively impaired asset grouping, and history would indicate that only a small portion of these loans will eventually not be recovered. The Group provides fully for its expected losses.

Restructured assets are assets where the Group expects to recover all amounts owing although the original terms have been changed due to the counterparty's difficulty in complying with the original terms of the contract and the amended terms are not comparable with similar new lending.

In order to be classified as a restructured asset, following restructuring, the return under the revised terms is expected to be equal to or greater than the entity's average cost of funds, or a loss is not otherwise expected to be incurred.

Past due but not impaired assets are any assets which have not been operated by the counterparty within its key terms but are not considered to be impaired by the Group.

Bad debts provided for are written off against individual or collective provisions. Amounts required to bring the provisions to their assessed levels are recognised in the Interim Statement of Comprehensive Income. Any future recoveries of amounts provided for are taken to the Interim Statement of Comprehensive Income.

The Company maintained an underwriting deed with its subsidiary MARAC Finance Limited to provide security for certain identified and not yet identified losses arising on impaired assets.

Where MARAC Finance Limited identified that a provision was required in relation to a particular loan or a group of loans, the existence of the Company's underwrite was taken into account in determining the value of the provision.

(p) Employee benefits

Annual leave entitlements are accrued at amounts expected to be paid. Long service leave is accrued by calculating the probable future value of entitlements and discounting back to present value. Obligations to defined contribution superannuation schemes are recognised as an expense when the contribution is paid.

(q) Provisions

A provision is recognised if, as a result of a past event, the Group has a present legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation.

PYNE GOULD CORPORATION LIMITED
NOTES TO THE INTERIM FINANCIAL STATEMENTS
FOR THE PERIOD ENDED 31 DECEMBER 2009

3 Significant accounting policies (continued)

(r) Share schemes

The Company provides benefits to staff in the form of share based payments, whereby staff provide services in exchange for shares. Currently the Company has the following schemes:

General staff share purchase scheme

Under this scheme the Company makes available an interest free loan to all staff to enable them to purchase Company shares, with the loan repayable over three years. The shares are issued at a price agreed by the directors and held in trust until the end of the loan term and the loan is repaid. As the fair value of the shares approximates the issue price, no expense is recognised.

Discretionary share schemes

Under these schemes the Company undertakes to transfer a specific number of shares to various key staff at a specified future date on that staff member achieving certain criteria. The shares are issued at a price agreed by the directors and held in trust until all the conditions are satisfied. The expected benefit is expensed over the period over which any conditions are required to be met.

Directors' retirement share scheme

Under this scheme the Company undertakes to transfer a specific number of shares to certain directors upon their retirement. The shares were issued at a price approved by the shareholders and held in trust until the conditions are satisfied. The expected benefit is expensed over the period over which any conditions are required to be met.

(s) Borrowings

Bank borrowings and debenture stock are initially recognised at fair value including incremental direct transaction costs. They are subsequently measured at amortised cost using the effective interest method.

(t) Financial guarantees

Financial guarantees (underwrites) written are accounted for as insurance contracts. The guarantee payment received is initially capitalised and is subsequently amortised on a straight line basis over the life of the guarantee. A liability is recognised when a payment under the guarantee becomes payable.

(u) GST

As the Group is predominantly involved in providing financial services, only a proportion of GST paid on inputs is recoverable. The non-recoverable proportion of GST is treated as an expense.

(v) Statement of Cash Flows

The Statement of Cash Flows has been prepared using the direct method modified by the netting of certain cash flows, in order to provide more meaningful disclosure. Cash and cash equivalents consist of cash and liquid assets used in the day to day cash management of the Group.

(w) Comparative balances

Where necessary comparative amounts have been reclassified so that the information corresponds to the classification presented for the current period.

(x) New standards and interpretations not yet adopted

A number of new standards, amendments to standards and interpretations are not yet effective for the period ended 31 December 2009, and have not been applied in preparing these interim financial statements. None of these will have an effect on the financial statements of the Group, except for:

- NZ IAS 24 Related party disclosures (revised 2009), which simplifies the definition of a related party, clarifying its intended meaning and eliminating inconsistencies from the definition, effective 1 January 2011.
- NZ IFRS 9 Financial Instruments, specifies how an entity should classify and measure financial assets, effective 1 Jan 2013. These standards are not likely to have a significant impact on the financial statements of the Group.

(y) Changes in accounting policies

The Group has adopted NZ IAS 1 Presentation of Financial Statements (revised 2007) effective as of 1 July 2009. Since the change in accounting policy only affects presentation aspects, there is no impact on any of the amounts recorded in the current or comparative financial periods in the financial statements. There have been no other changes in accounting policies in the current period.

7 Earnings per share

The calculation of basic and diluted earnings per share at 31 December 2009 is based on the profit for the period of \$10,103k (Dec 2008: loss of \$17,044k; Jun 2009: loss of \$54,355k), and a weighted average number of shares on issue of 323,602k (Dec 2008: 98,263k; Jun 2009: 98,397k).

The earnings per share calculated based on the closing number of shares (refer Note 14) rather than the weighted average number of shares, results in basic and diluted earnings per share of 1c at 31 December 2009 (Dec 2008: -17c; Jun 2009: -55c).

Auditor's review report

To the shareholders of Pyne Gould Corporation

We have reviewed the attached interim financial statements in accordance with the Review Engagement Standards issued by the Institute of Chartered Accountants of New Zealand. The financial statements provide information about the past financial performance of the Company and Group as at 31 December 2009.

Directors' responsibilities

The Directors are responsible for the preparation of interim financial statements which give a true and fair view of the financial position of the Group as at 31 December 2009 and the results of their operations and cash flows for the six month period ended on that date.

Reviewer's responsibilities

It is our responsibility to express an independent opinion on the interim financial statements presented by the Directors and report our opinion to you.

Basis of opinion

A review is limited primarily to enquiries of Group personnel and analytical review procedures applied to the financial data and thus provides less assurance than an audit. We have not performed an audit and, accordingly, we do not express an audit opinion.

Our firm has also provided other audit related services to the Company and certain of its subsidiaries. Partners and employees of our firm may also deal with the Group on normal terms within the ordinary course of trading activities of the business of the Group. There are, however, certain restrictions on borrowings which the partners and employees of our firm can have with the Group. These matters have not impaired our independence as auditor of the Company and Group. The firm has no other relationship with, or interest in, the Company or any of its subsidiaries.

Review opinion

Based on our review, nothing has come to our attention that causes us to believe that the attached interim financial statements do not give a true and fair view of the financial position of the Group as at 31 December 2009, the results of their operations and cash flows for the period ended on that date in accordance with NZ IAS 34 *Interim Financial Reporting*.

Our review was completed on 26 February 2010 and our opinion is expressed as at that date.
